

Copper sulfate

25 Cu + 12.5 S

PIMA

Ferti Sol™ The best line of soluble fertilizers

Ferti Sol Copper sulfate it is a fertilizer in the form of fine, light blue crystals, very soluble. Being a microelement, it is usually used interchangeably to prepare physical mixtures to correct soil deficiency. It is also used to prepare broths that are used as contact bactericides and fungicides, which prevents a wide range of diseases that affect crops.

GUARANTEED ANALYSIS
