PIMA

Ferti Sol™ The best line of soluble fertilizers

**Ferti Sol Phosphoric Acid 52%** it is a liquid fertilizer that provides phosphorus to your crops, this being the main source, the one with the fastest assimilation and the most economical in fertigation programs. Phosphorus stimulates early root formation and growth, rapid and vigorous growth in plants, resulting in stronger plants and healthier fruits.

## GUARANTEED ANALYSIS

| PARAMETER                   | VALUE                    |
|-----------------------------|--------------------------|
| Concentration ( $H_3PO_4$ ) | 72.0 %                   |
| Phosphorus ( $P_2O_5$ )     | 52.0 %                   |
| Phosphorus (P)              | 23.0 %                   |
| Density (30°C)              | 1.64 g / cm <sup>3</sup> |
| pH                          | < 1.0                    |
| Appearance                  | Greenish liquid          |
| Presentation                | Bulk packaging           |
